

## ANIMAL WORKSHEET FOR CLASS 3

### BEHAVIORAL AND STRUCTURAL ADAPTATIONS

PUT AN X IN THE CHART TO SHOW WHETHER EACH ANIMAL ADAPTATION IS STRUCTURAL OR BEHAVIORAL.

Some animal adaptations are **structural**, which means that they are part of the animal's body.

Other adaptations are **behavioral**, which means they are things the animal does.

Trait	Structural	Behavioral
 Beavers build dams to create ponds.		
 Hawks have long, sharp talons to grab prey.		
 Some moths look just like tree bark.		
 Lizards bask in the sun to get warm.		
 Spiders spin webs to catch prey.		

## ANIMAL WORKSHEET FOR CLASS 3

### BEHAVIORAL AND STRUCTURAL ADAPTATIONS

#### CORRECT ANSWERS

Some animal adaptations are **structural**, which means that they are part of the animal's body.

Other adaptations are **behavioral**, which means they are things the animal does.

Trait	Structural	Behavioral
 Beavers build dams to create ponds.		X
 Hawks have long, sharp talons to grab prey.	X	
 Some moths look just like tree bark.	X	
 Lizards bask in the sun to get warm.		X
 Spiders spin webs to catch prey.		X
